Title
Annual report to Parliament on immigration .
Publication type
Series

Canada is changing, to put it mildly. How serious is it, and what are the main sources of it? Let's take a dive into those Annual Reports to Parliament.

1. Mass LEGAL Immigration In Canada

Despite what many think, ***LEGAL*** immigration into Canada is actually a much larger threat than illegal aliens, given the true scale of the replacement that is happening. What was

founded as a European (British) colony is becoming unrecognizable due to forced demographic changes. There are also social, economic, environmental and voting changes to consider. See this Canadian series, and the UN programs for more detail. Politicians, the media, and so-called “experts” have no interest in coming clean on this.

(6) 2009 Annual Report to Parliament
(7) 2010 Annual Report to Parliament
(8) 2011 Annual Report to Parliament
(9) 2012 Annual Report to Parliament
(10) 2013 Annual Report to Parliament
(11) 2014 Annual Report to Parliament
(12) 2015 Annual Report to Parliament
(13) 2016 Annual Report to Parliament
(14) 2017 Annual Report to Parliament
(15) 2018 Annual Report to Parliament
(16) 2019 Annual Report to Parliament

Note: the 2019 report was added to the article on April 18, 2020.

3. Where Do People Come From?

This isn't everyone who stays in Canada, and certainly not everyone who enters Canada. However, it does provide a glimpse into ***WHERE*** people are coming from. Canada is importing the 3rd World, and becoming the 3rd World as a result.

Did you think that importing large numbers of people from:

(a) China

(b) India
(c) Philippines
(d) Pakistan
(e) Iran

might be the reason we have such large enclaves of these groups? Think there may be some connection between them? This is not a single year, but a consistent pattern. This does not lead to enrichment, but to balkanization, It leads to low trust communities where people care less and less about others. Robert Putnum's research (though he tries to spin the findings) is a must read.

4. True Size When Temps Factored In

Above are the "temporary" categories listed in the Annual Immigration Reports to Parliament. Now, let's take a look at all of it in context. Data is compiled from the 2004 to 2018 Annual Reports (which covers the years of 2003 to 2017)

Report Year	Stated Imm	Temporary	Actual Imm
2004	221,352	143,444	364,796
2005	235,824	147,204	383,028
2006	262,236	156,622	418,858
2007	251,649	174,361	426,010
2008	236,758	229,834	466,592
2009	247,243	272,028	519,271
2010	252,179	263,618	515,797
2011	280,681	278,433	559,114
2012	248,748	289,225	537,973
2013	257,887	318,383	576,270
2014	258,953	333,175	592,128

2015	260,404	420,708	681,112
2016	271,845	468,126	739,971
2017	296,346	551,342	847,688
2018	331,226	620,149	951,375

Shocking isn't it? This is what it looks like when "temporary" workers and students are factored in. Now, not all will stay, but the option is there. These programs are in fact pathway to permanent residence.

5. Changes In Census Data

Year	Population	% of Canada
1871	3,433,315	98.5%
1881	4,146,900	95.9%
1901	5,170,522	96.0%
1911	7,005,583	94.35%

1951	13,582,574	96.83%
1961	17,653,864	96.8%
1966	–	96.8%
1971	20,763,915	96.3%
1981	22,402,000	93.0%
1986	–	–

1986	–	–
1996	24,531,635	86.0%
2001	24,678,880	83.3%
2006	25,000,155	80.0%
2011	25,186,890	76.7%
2016	25,111,695	72.9%

Based off the Wikipedia page, it's sources are: here, here, here, here, here, here, and here.

To point out the obvious, yes the data table is incomplete. There are a few years missing. However, the overall trend shows an undeniable pattern towards those of European descent declining as a percentage and losing voting power.

Euro Canadians will be a minority in about a decade or so. How well will we be treated then?

6. Population Replacement Is Real

Is there any connection between importing large numbers of Chinese year after year, and the Chinese enclaves that are around Canada? Maybe there is something to it.

Is there any connection between importing large numbers of Indians year after year, and the Indian enclaves that are around Canada? Maybe there is something to it.

Is there any connection between importing large numbers of Muslims year after year, and the Muslim enclaves that are around Canada? Maybe there is something to it.

This is nothing short of full fledged population replacement going on. Import (on an ongoing basis), hundreds of thousands of people from cultures and backgrounds that have little to do with the European founding that Canada has.

However, it is taboo for Europeans to have an identity to be proud of. Other nations have a

strong history, culture, and founding stock. But in Western nations, have instead, the values of “diversity, tolerance and multiculturalism”.

One rule for me, another for thee.
